Dear Brian,

On behalf of Imperial Construction, please accept our appreciation for the excellent job your team has done over the past several months on The Grove at Frisco Commons. I have been working with AV Contractors for over 20 years and this is the best team I have ever worked with. Our project superintendent feels the same.

David Farragut and David Klepikow worked through a very difficult design “intent” with the upmost professionalism, knowledge, and patience. They were required to work through some very significant design revisions in the middle of the project, yet still maintained a positive attitude.

The team that performed on this project worked diligently and effortlessly with not only Imperial Construction but also with The City of Frisco and all associated trades. Their consistent teamwork was and still is impressive.

The AV consultant stated this was the cleanest install he has ever seen.

We appreciate the dedication combined with your staff's teamwork and energy. I hope to have GME on many future projects!

Sincerely,

Jennifer Collins
